He arred that the statement was one which afterward proved to be a fact and that it was an expression of the feling of deceased that the boy was justified in doing what he did, and was wholly proper and should be ad-

ludge King followed Senator Brown strong argument on the subject cited a number of authorities to uphold the contentions of the defense. After Dist. Atty. Eichnor argued in reply to the counsel for defense Judge Moss overruled the motion to strike out the testimony of Mrs. Smith. Mrs. Smith was then recalled to the

She stated that after Mr. smade the statement referred to bove he told Col. Shaughnessy to send . Kaighn that he wanted to see and also told Mr. Gardner to notiy his firm so that another man could esat out to continue his trip.

OTHER WITNESSES.

City Recorder Nystrom was the next winess called. He stated that he was at the Knutsford hotel at about 20 minuts past 1 o'clock on the day of the shooting and passed by Mr. Haynes and Bey Kaighn, who were sitting on the settle talking. Just after he passed eard the shot and turned back and aw Roy sitting there, but Mr. Haynes Witness then walked hair and heard him say he guessed he was done for and that it was all his ault. He said Haynes repeated the re-

acoustic properties of the house and found that a conversation in the paror below could be heard upstairs in the hall. It was brought out on cross examination that no test was made to see whether or not the conversation could be heard in Roy Kaighn's room on the second floor.

called. Dist. Atty. Eichnor objected to Mr. Davies testifying because he was present in court yesterday when the defense made its opening statement and when testimony was introduced and was not excluded. The objection was

was not excluded. The objection was overruled by the court.

The witness had visited Roy Kaighn at the city jail about an hour after the shooting and defendant looked as if under the influence of both whiskey and a drug. He said that Roy had a book of pictures of criminals and said to witness. to witness, "If you want to learn to be a detective here is a book I am reading that tells all about it; I think I will learn to be a detective." Witness said he didn't think defendant was of sound mind at the time he saw him.

On cross-examination he said that he had never seen a person an hour or hour and a half after he had commit-ted the crime of homicide and could not judge whether defendant was laboring urder the excitement of the crime or was under the influence of liquor or a

fendant at the police station just after his arerst and he appeared to be under the influence of liquor and a drug. "He didn't act exactly like a drunken man." he said, "he didn't stagger but it seem ed that his mind was affected and not his limbs. I smelled of the contents of the bottle taken from him and it smelled like alcohol and some drug."

Before the cross-examination was commenced the court took a recess un-

AFTERNOON SESSION.

F. L. Bagby, a Herald reporter, was the next witness called. He said he saw Kaighn at the police station about 20 minutes after the shooting in the chief's private office. The defendant appeared to be out of his mind. Witness tried to talk with him, but on account of his condition could not do so. When he was asked a question he would ignore it and appear not to hear it; did not seem to realize that he was being questioned. Witness said defendant appeared the same as other persons whom he had seen under the

On cross-examination witness said he had talked with a number of other persons directly after they had commit-ted the crime of homicide and, judging from their actions, he did not think that Roy Kaighn's actions were caused by the mere fact that he had shot a man, but from some other cause.

MUSIC IN NEW YORK. The Singers in Churches Said to be Poorly Paid.

Musical people who have been in New York say that the music committee of the dty churches there are gradually substituting the amateur for the pro-fessional singer, and lowering the salare of the professionals remaining to far below what they were formerly. The highest paid talent runs hadly over \$1,000, and this will be re-dized before long. By substituting volunteers for professionals, the qualiof the singing is greatly reduced that but then the expense is so reduced that the music committees think it worth while to make the change. Large volthis, with a moderately paid precen-age. So, girls with ambition to go to New York and secure choir positions ter choirs are coming to be the vould do well to look elsewhere ed that many New York choir singers are going into vaudeville, where much better pay is assured them.

BOUNDARY SURVEY. That Between Utah and Arizona Does

Civil Engineer H. B. Carpenter of Cheyenne, who conducted the Utah-Arizona boundary survey says the dary between this state and Arizona does not cross a foot of cultivated land it traverses a desert, which is cut up by great canyons that are almost impassable. The length of the line is \$77 miles. Landmarks along the will make it possible for the bo dary to be located without any diffi-culty in the future. Just east of the th the future. Just east of the ado river a sandstone butte rises 1,000 lest above the plain, and the very peak of this butte is exactly on the boundary. Mr. Carpenter named the peak State Line butte. Not far from this butte is another, which stands hamed Tower Peak. These two gigan-tic stones will always be a guide to perhave enough curlosity penetrate the desert in search of the

She leaves a wide circle of friends who will ourn her untimely demise. counselor in the Cache stake Y. M. I. A. superintendency, of whi organization she had been a valuable

HER HUSBAND'S ESTATE. Mrs. Allen G. Campbell Here on Busi-

ness Connected With It. Mrs Allen G Campbell is in the city for a few days on business in connection with her husband's estate, and must hurry back to California. She, however, hopes to return to Salt Lake early the coming summer to remain several months, when she will be able to see and enjoy the society of her friends. Mrs. Campbell says Mr. Campbell really died of measies which he caught from the children, and which developed into black measies. He was in perfect health at the three he was taken sick, and the idea of his being taken away never occurred to anyone. His iliness lasted only a week. Mr. Allen's remains have been so carefully embalmed that the undertaker claims they will be in just as good a condition 25 years hence as now.

FOURTH ANNUAL. ART EXHIBITION.

Utah Institute's Splendid Display At Provo.

THOUSANDS OF VISITORS.

Paintings Water-Colors and Other Work of Local Artists - Address by Prest. Mary Teasdel.

Special Correspondence.

Provo, Sept. 18.-The fourth annual exhibition of the Utah Art Institute was opened Monday evening in the gymnasium hall of the Brigham Young academy. There was a large attendance, and thousands of visitors, including all the school children, have enjoyed the beautiful display of art work

during the week. On the opening night President Mary Teasdel delivered a brief interesting address, calling attention to the organization and object of the art institute.

President Cluff, of the Brigham Young academy, followed in an eloquent address in which he paid a glowing tribute to the importance and usefulness of the institute and to the beautiful and successful work of the artists, architects and designers whose productions were on exhibition, and held the eager interest of the throng. The hall was briliantly lighted, and the harmony of color that decorated the walls was made more beautiful by the harmony of sound that filled the

The Jepperson mandolin club rendered soft strains of music, which floated out from the south balcony in delicate rythm, and Miss Jepperson sang with a rich voice that easily filled the large hall. At intervals during the evening the Brigham Young Academy orchestra, under the direction of Prof. Miller, discoursed beautiful music for the entertainment of the visitors.

The paintings are fewer in number than at former exhibitions, but the quality of the art is of a higher order. Each picture, almost without excep tion, gives an appearance of life and freshness that can be produced only by going direct to nature for inspiration The first impression upon entering the hall is almost bewildering, owing to the brilliancy of the fields, flowers and figures that greet the eye as they are arranged along the line.

On the right are several important canvasses by John Hafen, whose paintings were so well received last winter in New York and Boston. Among these are two of the widest range of sub-"A Forest Solitude at Twilight" is a picture of breathless silence well conceived, and well rendered. It represents a small clearing in an evergreen forest. The trail at the left is its only evidence of human life. The solemn trunks of the trees and the sombre foliage are of the virgin forest and express much of its grandeur. "Flowers and Sunshine" is as full of brilliancy and light as is "A Forest Solitude" mysterious and shadowy. A little girl in white among a mass of white and pink hollyhocks is a most happy and charming subject which might well be called light and life.

Mr. Hafen exhibits numerous other canvasses, less ambitious in subject, out equally charming and meritorious. The leading attraction on the walls of the exhibition is "The Harvesters by George Henry Taggart. The tender and feeling manner in which this beautiful theme is arranged testifies to the high intelligence of the artist and his sympathy with the natural conditions of life. Father and mother are resting their weary bodies against a sheave of grain, their countenances staid and thoughtful, while the daughter son-in-law are playfully enjoying the smiles and cunning ways of their lit-tle babe, the third generation in the

picture.
On the right of this picture is a group of four timid peasant children by the same artist. It is an incident that can only be caught on the instant. The disagreeable model-posing effect pre sent in so many paintings of this char acter, is entirely absent, in this work. The timid smiles and posture of the children are so natural one is lead to approach them and make them feel at approach them and make them feel at ease. The handling and composition is very broad and simple. Mr. Taggart has four other works, "The Prospector," a full length portrait of Apostle Reed Smoot and "Old Folks Reading a Letter," also a bust portrait of Dr Claude Gates, all handled with artistic intelligence. The potrait of Apostle Smoot is strong in delineation of character both in expression and pose. The acter, both in expression and pose.

same can be truthfully said of Dr. Gates. Truth is the presiding star of Prest. Teasdel is represented by sev eral clear and strong pictures among which are a "mother and Child," and "Fairy Tales." Both are beautiful arrangements of color and the former is mother with a child in her arms is gaving out of a lace draped window at quiet scene beyond, but meanwhile mindful of her tender charge.

There is a delicate spirit of mother-hood in this picture which cannot fail o enlist the sympathy of all who see it The composition and color harmony "Fairy Tales" are markedly success ful and the story of childhood is charmingly told. A little girl is reading her younger brother from a book fairy tales, which both are holding and regarding with an expression of quie contentment. This is one of the tures in which the three primary color are used as leading notes of the com-position, a most difficult feat to ac-complish and only too rarety under-

aken by painters generally. The two landscapes which Miss Teas del sends this year are extremely sen-sitive in color and treatment, and her miniatures are particularly fine. Mr. J. B. Fairbanks sends landscapes

of striking effect and his usually good qualities. One of them shows a raiload track running into the picture and the perspective carries an infinity distance. The whole picture is full of the warm, rich tones of nature and thoroughly successful. His most important work in the exhibition is per haps "October," which depicts a hazy autumn landscape in Utah. The composition and color are very simple, but through the means of their extreme simplicity Mr. Fairbanks has created a

work unique, and in every manner im Among the still life paintings the works of Alice Merrill Horne claim a marked degree of attention and enthutiasm. A squash, as such, may be a fomely thing, yet how beautiful when viewed from the artistic point.

Peary Found No North Pole.

Brave Explorer Tells of His Failure-At 84.17 North Latitude Polar Pack Became Impracticable and Further Efforts to Advance Given Up.

Sydney, N. S., Sept. 18.-The Pea- leads and pressure ridges with foggy ry Arctic Relief club steamer Windward, with Lieut, Peary on board, arrived here today from Cape Sabine. All

on board are well. Lieut. Peary said; "The arctic expedition did not reach the north pole, but we made most important scientific discoveries. We are all well and glad to get back to civilization."

Lieut. Peary sent to the club the following report of the operations of the expedition since Aug. 9, 1901:

"Left Frik harbor, on the Ellesmere coast, Aug. 29. The party reached Payer harbor Sept. 17, crossing Roose bay partly by sledge and partly by boat then walking across Bedford Pim. About a week later my Eskimos began to fall sick, not one escaping. By Nov. 19 sick adults and one child were dead, nearly all the others were very weak but out of danger.

"Early in January Eskimos came across from Anvilak, bringing news of the ravages of a fatal epidemic through the tribe. Word was sent back by these scouts for as many of the sur-vivors as could to come to me and by the end of the month they began arriving. In February a large depot of dog food was established near Cape Louis Napoleon, some sixty miles north of Sa-bine. On March 3 my advance party of six sledges, in charge of Hensen, left for Cangor. March 6, started with the main party of 18 sledges, leaving Percy in charge at Payer harbor. Cangor was reached in 12 marches, arriving within an hour or two of the advance

"My supporting party of Esquimos returning from Cangor brought down the instruments, chronometers and arc-Eight marches more took up to Cape Hecla. The north end of Robinson channel was all open across to the Greenland coast, lakes of w ter extending northward as far as could be seen from Black Cape and Cape Ran-some. From Hecla another supporting

"April 1 started northward over the Polar sea with Hensen, four Esquimos and six sledges. Old floes covered deep with snow and intersected with rub. ble ridges and lanes of young ice were encountered from the moment we left The same kind of traveling except the lanes of ice, was found by the English expedition of 1876.

"After six marches open leads, floes in motion were encountered. Two natives were sent back. As we advanced the floes became smaller, the pressure ridges on a grander scale and the open leads more frequent. Each day's march was more perilous and our general course deflected west by the character tude the uolar pack became impracticable and further efforts to advance were given up. New

weather made our return in some res ects more trying than the advance Hecla was regained April 29, and Cangor May 3. Leaving Cangor May ape Sabine was reached on the 15th. A few days later went north as far Cape Louis Napoleon to complete the survey of Babbit bay, returning the 1st of June, My proposed trip across El-lesmere land westward was preventel by open weather in Buchanan bay. The ice broke up earlier than in 1901,

and Payer harbor was blockaded almost continuously. Windward bored her way brough the ice and entered the harbor the morning of Aug. 5, and got out again the same afternoon with scarcely 15 minutes to spare before the harbor as closed by the ice. Forcing our way their belongings, were landed in Ughle'd gulf. Several days were devoted te hunting walrus and the Windward started southward, reaching and leaving Cape York the afternoon of Aug.

'Calling at Goodhoun, Greenland, and Cape Haven Baffin Land, the Windward arrived at Chateau bay, Labrador, Sept. voyage has been without mishap and the Windward with her engines has made as good time as the larger and more powerful ships that have been going north the last ten years. The year at Payer harbor was passed comfortably, though an anxious caused by the ravages of disease among my faithful people was not light. Food was abundant and our supply musk ox and deer meat throughout the year. The northern sledge trip in the spring was arduous but not marked by special exposure suffering or danger more than is necessarily incidental to serious arctic work.
"Equipment and personnel were sat-

toed by insuperable natural conditions. The Windward has on board the instruments, chronometers and arctic library nonandoned by the Greeley expedition and numerous specimens of natural history, bear, musk ox, reindeer and walrus skins. "The skeleton of a two horned narwhal, a rare arctic specimer, also liv-ing specimens of musk ox, walrus, arc-

the hare and Eskimo dog, are on board.

BRIDGE THAT WILL BE A WORLDBEATER

Eight Spans of Solid Concrete for The San Pedro Road.

PLANS OF SENATOR CLARK

Huge Structure, 800 Feet Long and 64 Feet in Height, to Span the Santa Ana River.

Engineer H. M. McCartney of the San Pedro, Los Angeles & Salt Lake railpass upon of a bridge that is to be thrown across the Santa Ana river in Los Angeles county, Cal. The blue held with Senator Clark. They have en prepared by Chief Engineer H. H. Hawgood and all indications are that they will be adopted.

LARGEST IN THE WORLD.

The scheme is to build a huge bridge pleted will be the largest bridge of its kind in the world. By taking local points in demonstration the bridge would extend from the McCornick block at the corner of First South, to the entrance of the Kinyon hoted, a block below on East Temple street.

SOME DIMENSIONS.

It will consist of eight spans, each of which from base to summit would permit the placing of the McCornick business block with the cornice knocked off under the archways. In plain figures the bridge will be 800 feet in length with eight spans of 86 feet in the clear and as many piers 14 feet in thickness. From bedrock to the top the affair will be 64 feet in height. The structure will be 24 feet in width, and when completed Engineer McCartney estimates that it will last for ages.

STEEL TRUST RESPONSIBLE.

"The truth of the matter is," said Mr. McCartney this morning, "that if we have to wait for the steel trust to deliver the steel for our bridges, there is no knowing how many of us will die is no knowing how many of us will die of old age. Orders which were placed for delivery last spring have apparently not been touched yet and there is no knowing when they will be. The situation was laid before Senator Clark recently with the result that he was willing to go to the great expense of puting in concrete bridges rather than wait for the steel.

stated intervals. With concrete when the bridge is once up there it will stand for ages. Of course such an undertaking as is proposed by Senator Clark is a very nice piece of work. As with a rope, its strength lies in its weakest part, so with concrete. Tests weakest part, so with concrete. Tests of the cement have to be made constantly so as to get the affair uniform and a drunken foreman may ruin a million dollar structure in a few minutes by carelessness. When the bridge is put up uniformly, however, it is essentially as though the whole affair were made out of one piece of rock. Concrete is the coming factor in the building of railroads. Why in Los Angeles today they are erecting a smoke geles today they are erecting a smoke stock 200 feet in height out of solid concrete. We are getting back to first principles, for the Egyptians undoubt-edly made some of their huge obelisks out of artificial stone, at least so some scientists tell us."

WILL COST A FORTUNE.

Mr. McCartney was not prepared to state how much this proposed bridge would cost, but he said it would reach a price that would be staggering. He expressed himself to the effect that the plan was perfectly feasible and that it

would be carried out as planned. If this bridge is built it will undoubt-edly give the San Pedro more free advertising than can at this time be es-

WILL TRY EXPERIMENT. Executive Committee Working on Saltair Bathing Problem.

John Henry Smith, L. John Nuttall and Nephi W. Clayton, the executive committee of the Saltair Beach company, went out to the resort on a special yesterday for the purpose of oking over the situation with the idea of improving the bathing facilities for next season. After a careful investigation it was decided to start some ex-I eriments on a small scale along the lines of building a retaining wall, so as to hold a good depth of water in the vicinity of the pavilion and bath rooms, The projects of moving the pavilion putting in moving sidewalks and other schemes that have been exploited in the press, were not entertained for a

Another Boxer Uprising Coming

China on Verge of One According to Advices from Minister Conger-Troubles Arise from Extortionate Taxation and Resentment Against Presence of Missionaries-American Apprehensions Fully Justified.

he verge of another Boxer uprising hich may equal that of 1900, according mail advices received at the state epartment from Minister Conger datd last month. The troubles appear to rise principally from extortionate taxtion combined with resentment against he presence of missionaries, thus jusifying the judgment of the department of state which pointed out to the pow-ers that the demand for excessive in-

demnities would result in serious in-ternal troubles in China. Mr. Conger's first advice bears date of Aug. 6, from Pekin, and he reports serious anti-foreign riots near Chentu, in the province of Sze Chuan, in which a

massacred and chapels destroyed.

Mr. Conger appears to have acted with energy upon telegraphic comlaints from Dr.Canwright, an American medical missionary at Chentu not only addressing the Chinese foreign office by letter but calling there in person to impress upon the officials the necessity of immediate action, and finally suc ceeding in causing the removal of the local Chinese officials who had failed to repress the riots and preserve life nd property.

Mr. Conger encloses within his report the communications that passed be-twen himself, Dr. Canwright and the foreign office. Under date of June 20, from Chentu, Dr. Canwright telegraph-"Sze Chuan repeating (troubles of) by

1900. Chapel burned, ten Christians killed. Boxers (have been) multiplying (for) four months; officials taxed." Dr. Canwright to demand adequate protection for missionaries and the native Christians from the local officials. He also addressed a note to Prince Ching at the foreign office, stating that there were several American missionaries and many chapels and converts in Sze Chuan, and that it was necessary that immediate provision be taken to stamp out these troubles at their very incep-

Gen. Nord, at the head of 3,000 men, attacked Limbe at 9 o'clock yesterday morning, and after desperate fighting lasting three hours, the general aban-CONCRETE ALL THE RAGE.

"Concrete is getting to be all the rage in building railroads nowadays. If a good job is made a concrete bridge will of Cape Haytien is in a state of anxielast for ever. Steel bridges always have ty. The enemy to the number of 4,to be looked after after they have been put up; they also have to be painted at the place. Another battle before the town is imminent.

In his answer, Prince Ching enclosed a copy of the following imperial edic: "Some time ago a number of local outlaws were banded together in the istrict of Tse Yang and made trouble whereupon I dispatched troops to disperse them. The leading criminal, Li Kang Church and others were arersted and executed, now the magistrate of the Ma Cheng Chi, reports that at Tch Chu Kim in his district, outlaws 1.000 strong, suddenly made a night ateck and destroyed a church which the British or American society had built. The preacher, Chu Cheng Wei, and four church members were killed. They alo burned some houses and killed three christians. I sent troops in all haste and deputed besides, an official with

Washington, Sept. 18.-China is on I rank of tao tai to proceed with braves to attend to this matter. "Such flerce and lawless outbreaks should certainly be quickly put down.

They must on no occasion be allowed to We command Kwel Chun to strictly order the troops to disperse the rebels and their followers; to seize the ring leaders and to punish them according to the rigor of the law and so nip the rebellion in the bud.

"We feel a great pity for the mis-sionary or preacher and others who for no fault of theirs have lost their lives, and command that adequate relief may

at once given.
"As for Ma Cheng Chi, the magistrate of Tze Yang, who, it is said has not long been in the office because he was remiss in taking precautionary measures, we demand that he be removed from office, and that he be given a limited time within which to capture the

"As there may be outlaws in other places, who rouse the suspicions of people, spread rumors and make trouble, the local authorities should be sternly instructed to make careful search and put a stop to all such things; to take special precautions so as to get rid of bad characters and to encourage the law abiding people. They must give real protection to the chapels and mis-

onaries without the least remissness.
"Besides sending a telegram to the vicercy of Sze Chuen that he should at once carry out the imperial will as in duty bound, we have reverently copied the edict and sent it for your excellency's information

'With compliments of the season.' "Cards of Prince Caing.
"Ministers of the board of foreign "Dated 21st day of the fifth moon, (June 26, 1902.)"

Another dispatch from the foreign office to Minister Conger dated July 3, states that the viceroy reported that the missionary killed was Chinese and quite a number of leading Boxers had been captured and a sharp lookout was being kept for those still at large.

Mr. Conger again had occasion to address the foreign office on July 30, in-forming them that Dr. Canwright had

again reported that robberies and massacres were occurring daily; that all were in great danger and that he had demanded protection in vain.

The minister urged the foreign office

ity of a further loss of life and proper-The foreign office replied that several edicts had been issued directing the viceroy to suppress the troubles. It had received a telegram from that official stating that the rebel, Hsiung Ching He, of Jen Chou Hsian, made his appearance suddenly at the head of a crowd and burned a chapel and some 30 old houses early in that moon and also killed a Christian. They also committed other outrages whereupon the viceroy dispatched troops to the scene who killed some 20 or more people. The leader of the riot was also captured and orders were given to have him behead. ed and his head exposed. The rebels at other points were also attacked by the government troops and routed, three or four hundred of them were killed. The judge of the province reported that there was no need for the missionaries

to seek temporary refuge.

Chicago, Sept. 18.—Suspended only by his hands, McNaughton Wright, a prominent member of the board of trade, hung between life and death for twenty minutes at the top of a grain chute in the Rock Island elevator. When rescued, Mr. Wright was exhausted and on the point of releasing his hold, which would have meant a fall of 100 feet to the hard floor of an empty bin, and almost certain death. He had entered the elevator to inspect some wheat. Making a misstep, he clutching the edge and hanging by his hands. Mr. Wright's calls for help vere finally heard by an were finally heard by an employe who pulled him out. He fainted, then was unconscious for nearly an hour.
